

TechMart Electronics — User Manual (Quick Start)

Getting Started

Unbox your TechMart device, charge fully via the included USB-C cable, and download the TechMart Companion App from techmart.com/download.

System Requirements

Companion App requires Windows 10 or later, macOS 12 or later, Android 11 or later, or iOS 15 or later.

Common Error Codes

ERR_001 (Authentication failure): reset your password. ERR_002 (Corrupted installation): reinstall the app. ERR_003 (Server timeout): check status.techmart.com. ERR_004 (License mismatch): contact billing support.

Troubleshooting Steps

1) Clear app cache and restart. 2) Reinstall the latest version. 3) Verify system requirements are met. 4) Run built-in diagnostics via Settings > Help > Run Diagnostics. 5) If unresolved after these steps, contact Technical Support for Tier-2 escalation.

Updating Firmware

Firmware updates are pushed automatically when the device is connected to Wi-Fi and charging. Manual updates can be triggered via the Companion App settings menu.
